EDITOR'S NOTE

Heroes vs. Villains

So far, this summer, super heroes seem to be the theme in the theatres. And the latest release from Artbox is following suit in the trading card industry. Hero Collection Series 4 cards have hit the streets and you can see them beginning on page 10. Check out which DBZ hero makes his appearance in part one of a two-part article. After you've seen these cards turn to page 16 for your chance to win one of three Hero Collection Boxes. Speaking about latest releases, Irwin Toy has released their newest line of action figures. Turn to page 18 to see the heroes and villains of Series 9.

This month we put a new spin on our Z-Files. On page 6, we're taking a look ahead at the next series; Dragon Ball GT. Here's your first look at some of the monsters that Goku and the gang will battle in the episodes ahead. And for those of you ready to battle these bad guys and can't wait for the episodes, turn to page 43 and enter our contest to win PlayStation's Dragon Ball GT Final Bout (American version.)

"And the winner is..." For those of you that have been awaiting the results of our contest to be a published artist, your wait is over. Congratulations, to the three grand prize winners on page 61. If your art was not selected, check out next month's issue to see the nine runners up.

We have received numerous phone calls about the Game Boy Advance Legacy of Goku. "Where can I get a strategy guide? What are the different secret codes?" On page 20, we begin to answer those questions by reviewing the game and sharing some of the things we have learned. And if you are still looking for one of those hot games, check out our Cool Z Stuff section on page 67 and order one.

Next month, we will continue with new strategies for The Legacy of Goku game.

The Dark Side of the Dragon Balls

THE GOOD, THE BAD & THE CIRCUITRY:

The final villains of the entire Dragon Ball series are widely unknown in America because of how difficult it is for some to obtain DB:GT episodes, and they have not yet been aired on television in the US, but soon that will all change! We're happy to bring you a crash course on all of the Dark Dragons.

Dark Shenron-

The evil incarnation of Shenron, this giant black dragon bursts forth from the Dragon Balls when they're used after the Super Android 17 Saga. He poses no direct threat to Goku and company because he's merely a messenger. He explains to the Z Soldiers and friends that because there were never any evil wishes made with the Dragon Balls, Minus Energy accumulated in the Dragon Balls, causing them to create the Dark Dragons. After explaining the situation, Dark Shenron bursts into 7 different Dragons and the Dragon Balls spread across the Earth.

7 Star Shenron-

This Dragon appears to be nothing more than a weak and cowardly mole-type Dragon. However, the Dragon reveals its true nature when it absorbs Pan and takes her power, which changes it into a powerful and dangerous form. Goku has to figure out a way to kill the Dragon without killing Pan inside! This Dragon represents the wish that was made to resurrect all good people Vegeta killed at the 25th Tenkaichi Budoukai.

6 Star Shenron/Princess Oto-

A fishing village becomes dangerously obsessed with a floating goddess they call Princess Oto. When Goku and Pan arrive they find that the Dragon Ball is actually with the young girl, and come to the conclusion that the so-called 'Princess' is actually a Dark Dragon! At first the battle that ensues seems to be heavily in the Dragon's favor because it isn't damaged by any attack, but the secret of the Dragon's "strength" is soon revealed! The Dragon is actually rotating at incredibly high speeds, creating the illusion that it is a beautiful young princess, and the force of the rotations can deflect most attacks! This Dragon represents the wish Oolong made for a pair of panties.

5 Star Shenron-

This Dragon by itself doesn't pose much of a threat, but it has the unique ability to make a protective Dragon-like shell grow around him by absorbing electricity and attacking with electric slime. This Dragon rep-

UNEARTHING THE DATA OF DRAGON BALL Z CHARACTERS

resents the wish for Goku's resurrection during the Saiyan saga.

4 Star Shenron-

Four Star Shenron is very special because it controls the Dragon Ball. Goku believes contains his grandfather's soul. With a power of generating heat even greater than that of the sun, this Dragon poses a major threat to Goku. But just maybe this Dragon does contain Grandpa Gohan's spirit because he make a surprising choice at an important turning point in the battle with the final Dragon. He represents the wish made by Piccolo Daimaou to restore his youth.

3 Star Shenron-

Completely opposite of his brother, 4 Star Shenron, this Dragon can generate incredibly cold temperatures and uses this ability to freeze Goku's appendages. Unlike 4 Star, this Dragon has no feeling for anyone and doesn't think the idea of double teaming Goku to overwhelm him is a bad idea. When it comes down to it, he wouldn't even mind killing his own brother. This Dragon represents the wish that erased everyone's memories of Majin Buu.

2 Star Shenron-

Like many of the Dragons, this one seems harmless at first, but as he tries to stall the battle, Goku and Pan find themselves getting beaten as time passes. The secret to this Dragon is its production of Minus Energy from a nearby lake. The energy drains the strength of Goku and Pan the longer they stay in the area, and after losing the ability to even walk, the Dragon hurls them into the lake to let them drown. Luckily there is someone who isn't affected by the Minus Energy with Goku and Pan that rescues them, and gives them a second chance to beat the Dragon. This Dragon represents the wish that restored Bora to life.

1 Star Shenron-

This walking mountain of spikes and teeth is the final and most dangerous of the Dark Dragons. He steals the Dragon Balls and swallows them, adding their strength to his and making him nearly invincible. The final battle lasts for quite a few episodes and some very cool new tricks are revealed! With the help of Bulma's Brute Ray Vegeta is able to transform into Super Saiyan 4 and fuse with Goku, forming Super Saiyan 4 Gojita. But will there be enough time to defeat the most powerful Dragon? You'll find out soon enough! This Dragon represents the wish that was made to resurrect everyone killed by Frieza and his men on planet Nameck. ★

IT JUST KEEPS GETTING BETTER

IRWIN SERIES 9 ACTION FIGURES

At the writing this, Irwin has just released their latest IR-9 upcoming series 9 figures. If everything stays on schedule, you should be able to buy the figure(s) within a few weeks of reading this article, and from now this is a set you're going to love!

Series 9 includes Hercules, Krillin (with hair), Pui Pui, Babidi, and Majin Buu. This is the second set of figures from the Babidi saga, and out of five figures, there are brand new, having never been made by either Bandai or AB. Let's check those figures out first:

HERCULE

Hercules, the "Fabled Universal Champion" is a figure that has been wanted for a long time. This tradition should make those greatly happy. The facial sculpt is right on the money! powerful, a big smile, and a big nose. His hair is in place (with some great looking texture), and overall, just shows that worthy manner that of the man. Furthermore, his chest jewelry hole has the leather-like rope with the round "Changou" medallion right in.

A beautiful pose and design are the figure's high points. The only two points were lack of articulation in the lower arm and the fact that his long, curly hair poses by itself (the movement of his long hair) flat.

PUI PUI

Pui Pui, in case you don't remember him, is the first warrior the 4 figures face on Babidi's ship. Babidi's magic made the figure a clone of Pui Pui's body, which is about 1/2 size (in general, thanks to being that a nice size). Vegeta's reaction Pui Pui was a little effort.

It's a nice, a wonderful pose, going down a line a momentary expression. Pui Pui looks confident and confident, and is the same. The body sculpt is well done, and looks very nice in a strong pose, very dynamic, this figure is really looking in anticipation. His shoulders are round, not flat, and his legs look like it should be holding a heavy, not like he's going to break. In a display pose, the figure looks great, but it would be hard to pose for battle.

BABIDI

Babidi is my favorite figure from this assortment. The sculpt is wonderful—the static positions of the arms are actually useful for posing the figure, as if it's actually saying "Pappara-pa!" and casting a spell. The open mouth, slit eyes, and a cape, which appears to be blowing in a magical wind, enhances this figure. Also, the miniature size of this figure seems perfect, and it appears with this whole series that scale is one problem Irwin's finally got nailed down. In general, this figure captures the essence of the character better than any I've seen before.

The only problem with it isn't with the figure itself, but the accessory that comes with it. If that's Majin Buu's moon, it should be much, much bigger. Granted, it's just an accessory, but a better accessory of that size would perhaps have been Babidi's crystal ball.

KRILLIN

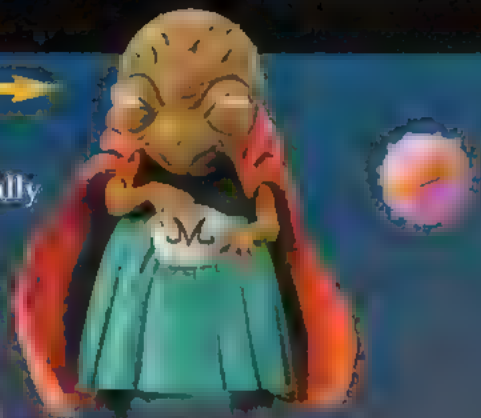

This figure takes the AB Krillin figure and runs with it. The base sculpt is well done, and the slight tilt of the head and the cock-eyed smile are special touches. The beauty of this figure is in the detail, like his wristbands, the contours of his shirt, the drawstrings on his pants, and other details that are molded in, rather than just painted on. Also, I love articulation on little figures, and this figure has plenty of it. Krillin is a great all-around figure and definitely blows the AB styling out of the water.

MAJIN BUU

This seems to be the least-inspired figure in the series 9 assortments. The sculpting is subtly different than the Bandai one, however, they are similar enough that it almost looks like a repaint. Buu has such a great range of facial expressions, it would have been nice to see something different, like an angry expression or at least a version with its mouth open to a big, gaping hole. It seems that Buu is painted in a pretty runty here, and that's a shame.

However, they make up for that with Buu's accessories. Not only does he come with Bee, the dog that he and Mr. Satan befriend (who is also the catalyst for Buu's first transformation), but he also comes with a Deluge Cookie. The cookie looks just like an animal cookie, except it's Deluge of course. This is by far the coolest (and funniest) accessory seen in series with a DBZ figure!

Look for these figures to be driving the next 14 months (or so) in the market!

Beckett's Guide to Dragon Ball Z: The Legacy of Goku

Publisher:	Infogrames
System:	Game Boy Advance
Price:	\$29.99
Number of Players:	1
Game Genre:	RPG

By: Jason R. Rich

for most people, May 14, 2002 was just another ordinary day. For gamers across America, however, this was the day they got their first taste of Dragon Ball Z: The Legacy of Goku, a role-playing adventure game based on the popular Dragon Ball Z animated TV series. Featuring superior graphics, detailed game play and impressive sound on the Game Boy Advance system, this new title quickly hit the best-seller charts. It seems Dragon Ball Z fans couldn't wait to get their hands on this much anticipated game.

Not to be confused with Dragon Ball Z: Collectible Card

DRAGON BALL Z

THE LEGACY OF 悟空 GOKU

Game (sold separately, also for Game Boy Advance), *The Legacy of Goku* is an intricate, one player adventure game in which animated battles take place in real-time. (Most RPGs feature turn-based battle sequences.) The main character, Goku, becomes increasingly stronger throughout the game by building up his Ki, Melee and Experience levels.

The Beginning

The Legacy of Goku begins as Goku decides to visit his old friends on Master Roshi's Island. This is the island owned by his former martial

arts teacher. Joining Goku on this getaway is his young son, Gohan. While the trip was supposed to be a vacation, it quickly turns into dangerous quest to save the entire planet.

Throughout your adventure, you'll be controlling Goku as he explores, participates in battles, attempts to solve mysteries and fulfills various quests. To assist him on his journeys, Goku can collect items he finds or is given by other characters. These items are stored in his inventory and can be used to accomplish specific tasks. For example, Senzu beans and herbs are useful for restoring Goku's health if he gets injured in battle. They should be collected and kept for when they're needed, such as after particularly difficult battles.

In order to gain experience and succeed on his quests, Goku will participate in countless battles. It's during these bouts with opponents that he can use melee (punches and kicks) as well as Ki (energy weapons) to defeat his adversaries. While Ki

attacks are powerful, they take time to charge up before each use. As Goku becomes more experienced in battle, his three types of Ki attacks will become more powerful.

Ki Attacks

The initial types of Ki attacks Goku can perform include the power-packed Ki Blast (an energy ball projectile weapon), the Solar Wave (used to temporarily blind enemies) and the Kamehamea Wave (a powerful energy beam that can be devastating when fully charged). Over time, Goku will master additional Ki attacks which will prove extremely useful against certain enemies.

Saiyan Flight

In addition to walking on the ground, Goku has limited flying and levitating abilities. This comes in handy during battles and for overcoming certain obstacles. Whenever this ability is used, it uses up Flight

Charge, which must later be replenished. Only when Goku has Flight Charge available can he fly or levitate. Flight Charge power-ups can be

found and collected through the adventure.

As the adventure unfolds, Goku will encounter more than 75 popular characters from the Dragon Ball Z

TV series and comic books, some of whom will be friendly, while others will be out to defeat Goku without mercy.

In addition to rescuing his kidnapped son, Goku's overall goal is to save the planet (and possibly the entire universe) from the notorious Frieza. Your adventure begins on Master Roshi's Island.

Getting Started

Your initial quest involves finding three of the master's missing magazines. You'll find these magazines by searching the ground on the small island. One can be found within the master's house (Kame House), on the floor. The two others are on the sandy beach outside.

Upon returning the lost magazines to Master Roshi, you'll receive 350 experience points and some useful

power-ups. You'll also reach level two. Keep chatting with Master Roshi until a Saiyan warrior appears with some interesting news about your past. It's at this point that Goku's son gets kidnapped and the excitement really begins.

Goku instantly gets transported back to his house on the mainland. Start following the paved path and avoid the grassy areas with the dangerous snakes. Near the pond, you'll find a few enemies who can be

defeated quickly in order to build up your experience. Reaching level three before leaving this area is a smart strategy, because the enemies only get harder to defeat as you progress.

Later, in the dark and gloomy woods, small, blue, dog-like creatures will approach Goku and attack him. As you reach new areas, it's always a good idea to save your game. The blue dog-like creatures move quickly and are powerful. They will diminish all of Goku's health with just a few attacks if you're not careful. While you can try to outrun these creatures,

fighting them is a much better approach. Be sure to chat with Chiaotzu to earn 500 experience points. In this area, you'll want to recover the pterodactyl egg and return it to its mother.

After a bit more exploring, you'll reach Forest Village. A blue dog will be waiting to launch an attack, so be prepared. Travel to the north and enter the house. Be sure to talk with the old man who lives there. He'll send you on your next quest. Completing this new quest is worth another 500 experience points.

Throughout your adventure, you'll visit many different locations, each of which contains its own set of challenges and surprises. Be sure to speak with as many people as possible. Some will offer valuable clues, while others will hand you items. Of course, enemies you encounter will often initiate attacks.

Game Review:

Dragon Ball Z: The Legacy of Goku is an impressive game from a visual standpoint, however, it isn't too challenging for highly skilled gamers. Once you figure out how to get past certain obstacles or defeat the various types of enemies, much of what's involved in the game involves exploration. Like most RPGs, there's plenty of repetition in terms of the enemies you encounter and the types of battles you participate in.

If you're a fan of Dragon Ball Z, you'll love this game, because you'll

already know many of the characters. Overall, it's a fun-filled game for gamers between the ages of eight and 16. Dragon Ball Z: The Legacy of Goku is only compatible with Game Boy Advance.

Tips & Tricks

As you experience The Legacy of Goku, here are a few tips and strategies to help you succeed:

- **Energy For Experts** - Hey, if you want to experience the game with unlimited energy, first complete the entire game, then restart it. You'll be given unlimited energy once you've successfully mastered all of the quests and side quests.

- **Replenish Your Energy** - While it's possible to replenish your energy in the middle of the game using this cheat, you'll be returned to the beginning of the area or level you were currently on. When things get tough, to replenish your energy, save your game, then turn the Game Boy Advance off. When you turn the game on again and continue your adventure, you'll be given a full energy and Ki bar.

- **Temporary Invincibility** - Getting through a specific level will be easier if Goku can't be injured. To achieve temporary invincibility, locate an enemy that fires Kai beams while Goku is flying. When Goku gets hit

by one of these beams, he should land with his fly meter still on. This will give him unlimited health until he leaves the area.

- **Defeating Frieza** - One of the most challenging battles you'll encounter is against Frieza. Beating this diabolical adversary won't be

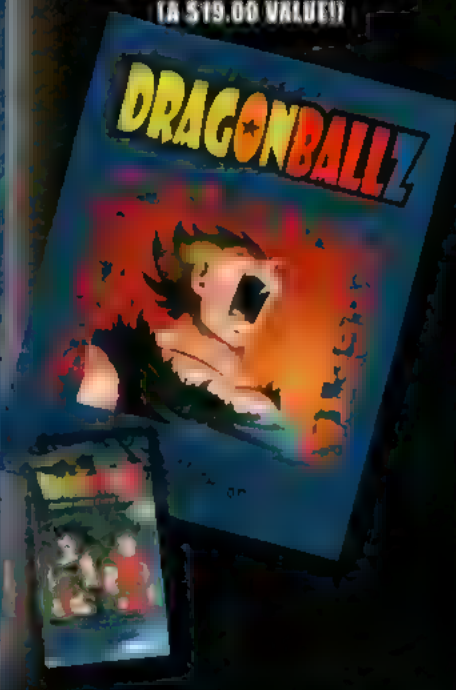

easy. Make sure Goku has reached level 20 or higher in terms of his Experience. You'll want to use plenty of Ki to launch powerful Solar Flare attacks from close range, then compliment those attacks with a series of punches. Alternate these two types of attacks several times and you'll be victorious.

- **Collect Herbs and Senzu Beans** - At any given time, Goku can hold six Herbs and three Senzu Beans to replenish his health. When you encounter one of these items, grab it, then retrace your steps and leave the area. Next, return to the place where you found the item. An additional power-up will be waiting for you. ★

Sorry, No International Orders

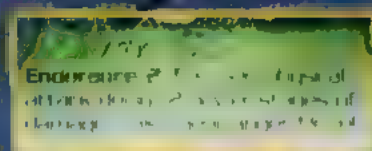

The latest introduction to the DBZ CCG will!

This month's article takes a look at the latest addition to the Collectible Card Game by Score: The Cell Games. Let's review the new techniques, card strategies and combos. Let's begin the Cell Games!

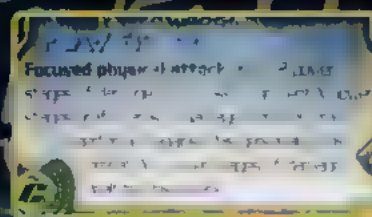

New Tactics

This saga was meant to disrupt current game play, add new methods of winning, and give more ways to stop your opponent in his/her tracks. This saga has been re-done with powerful new techniques and attacks that not only disorder the way the game is played, but also take control of the events. Let's look at the four new cards or effects that Cell Games has brought in that most drastically change game play.

Endurance - With Endurance comes strength, and with strength comes abilities. In Cell Games, Endurance provides a new way for you to take less damage from strong physical or energy attacks. While you are discarding life cards. If you discard a card marked with Endurance, you have two options. If the card is discarded, you proceed to discard the remaining life cards, but if you remove the card from the game, you will be able to take as many life cards less damage from the attack. This move greatly decreases the overall power of Survival decks.

Focused Attacks - This new method of attack has proven itself both valuable and effective. These kinds of attacks can only be blocked with a specific card that

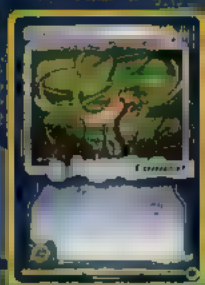

blocks a focus attack. This means "semi-blocks" (like Goku's Super Saiyan Blast) that block both physical and energy attacks; do not work against this attack. These kinds of attacks are not necessarily the most powerful, but provide the greatest insurance that your attacks will hit your opponent.

Cosmic Backlash - One of the two game winning cards, this one is inevitably stronger than the other. With the power to hurt either you or your opponent permanently, this card can get sticky. It reads: "Physical Attack: Your opponent draws five cards. If successful, and you did not declare Tokui-Wari, then you win the game." While this card can only be used in certain decks, and is situational, it will let you win the game, but only if your opponent can't block physical attack with one of those five cards he draws or is existing one in his hand.

Dragon's Victory - The latter of the two game winning cards. This one has the potential to win the game much easier, but the initial set-up for the card is much more difficult. While it can be used in decks that declared Tokui-Wari, facing both players at a four finger is quite difficult. This card reads, "Your Warrior Sword must read 4 fingers to use this card. When you play this card, your opponent's finger one level. If your opponent's Warrior Sword reads 4 fingers you win the game."

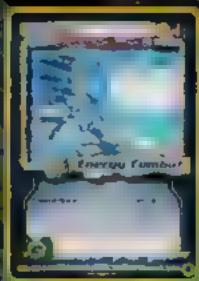

Strategies and Reprints

Let's take an in-depth look at eight powerful

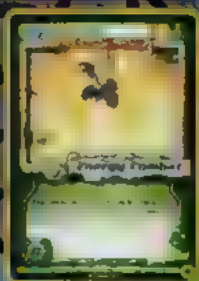

Godian's Kick - "Physical Attack doing +3 power stages of damage. Cards that end combat, or cards that stop all physical attacks or all energy attacks, can not be used for the remainder of combat." Truly a devastating card to say the least, this alone has game winning abilities. Although you only get to pick one effect (combat enders, all physical attack blockers, or all energy attack blockers) this cards options are limitless. As the rise of Black decks is steady, this card will become increasingly more powerful as the game progresses, preventing your opponent from blocking your entire attacks, or worse, ending combat on you, stopping all of your attacks.

Power Boost - "Endurance 3. Use immediately before you perform an energy attack. You do not pay any costs for the energy attack and it does +2 life cards of damage." Wow! This card is not situational whatsoever, and makes already good cards better. In conjunction with Krillin's Heat Seeking Blast, you can perform an unstoppable Energy Attack for more than six lives of damage. This card will be a must for all decks using many Energy Attacks.

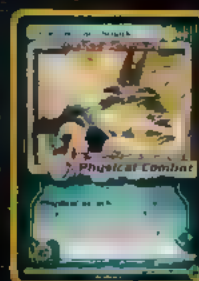

Saiyan Triple Blast - Need a card you get it! This focused energy attack for three lives of damage is powerful, but also successful, allowing you to finish a turn after attacking. This will become another powerhouse for Blue decks looking to attack your opponent quick and hard.

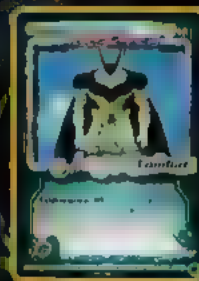

Blue Energy Attack - "Focused energy attack doing 3 life cards of damage. If successful, remove the top 10 cards of your Opponent's discard pile from the game." With great game play disruption, a focused attack, and more cards in your opponent's remove from game pile, what more could you ask for? If you are running a Blue Style deck, you should seriously consider using this card because of the rise of Namekian decks.

4 power stages of damage. If you declared a Tokai-Waza, you may rearrange the top or bottom 10 cards of your discard pile in any order." This makes great use of the Cell's Style/Battle Pausing combo, and can allow your opponent to use Cell's Style more than six times in one combat, allowing for some major damage.

Namekian Restoration - "Endurance 10. Shuffle the top card of your discard pile back into your life deck. Remove from the game after use." I almost skipped over this card, but after a double take, I realized "Endurance 10!" Wow! With this card alone, you can block almost any physical or energy attack without even technically blocking it. If that wasn't enough, you also get to add one of those discarded cards back into your life deck just in case your opponent hits you again.

Orange Energy Shot - "Energy attack doing six life cards of damage. If stopped, your opponent must discard the top two cards of his life deck." Even if your attack is stopped, your opponent still has to discard cards, which can be pretty chilling. Use this card for sure if you are running an Orange Style Survival deck.

Red Attack - "Stop a physical attack once your anger explodes. Search your discard pile for a drill and place it in play." You may hear my friend call this card from the Cell Games, this can cause an orange deck to lose the game always. If you are in a jam, and need a drill to stop an attack, or even better, make yours more powerful, then use this, and you will get a free drill from your discard pile. Plus raise your rage one, which can be a very good thing if you have Tien level 3 and Dragon's Victory in your deck!

Next month's issue will contain more Cell Games card reviews, World's Tournament preparation, and more in-depth strategies and combos.

PRICE GUIDE & CHECKLIST

HOW TO USE

What the Columns Mean

The LO and HI columns reflect current retail selling ranges. The HI column on the right generally represents the full retail selling price. The LO column on the left generally represents the lowest price one would expect to find with extensive shopping.

What the Arrows Mean

Up arrows denote prices that went up since the last issue. Down arrows denote prices that went down since the last issue. Arrows don't mean a card or set is "going up" or "going down."

Grading

All cards and toys in the Price Guide are based on Mint condition. Damaged cards are generally sold for 25 to 75 percent of Mint value. Toys that are loose (out of package), are generally sold for 50 percent of the listed price.

DBZ Online talks Movies

The big news that has been posted all over the web for the last few months was the announcement by Fox Films of a live action Dragon Ball movie! With the immense success of Spider-man and Harry Potter, rumors are that Fox will pull out all the stops on this movie, and spare no expense to fill it full of terrific special effects and popular actors. No doubt rumors will be appearing all over the web about the film as production begins later this year. One rumor that has been talked about on chat boards already is the idea that there will be a series of movies!

Previous Movies

While the news is pretty exciting, apparently there has already been a live action Dragon Ball movie! Released in 1993, *Dragon Ball: The Magic Begins* was filmed in Hong Kong as a Kung Fu movie with very little resemblance to the story Dragon Ball fans are familiar with. While licensing the title, all the characters names are different from the series, and the story might be a bit unfamiliar as well.

A detailed synopsis, review, photos, music, and even a clip of the film can be found at:
http://www.badmovies.org/movies/Dragon_Ball/

Some of the movie's characters may be easy enough to figure out:

Monkey Boy is obviously based on young Goku from the original Dragon Ball comics and series. Also there is the lecherous Turtle Man, Grandpa, and Piggy, among others.

In the story, Monkey Boy tries to keep the evil King Horn from acquiring all seven Dragon Pearls. There's lots of Kung-Fu action, and even a little magic. But most DBZ fans will scratch their head and wonder how this thing ever got made. And therein lies an intriguing tale.

Web Findings

Curious about this, I started looking up the terms Dragon Ball and Monkey Boy together in the Google search engine (<http://www.google.com>). In my search I discovered some fascinating information. Apparently, when Akira Toriyama first came up with the Dragon Ball manga (comic book), he was greatly inspired by a five hundred year old Chinese story written by Wu Cheng'en known as the *Journey to the West*. The main character, Monkey Boy (also known as Monkey King) has a tail and an expanding staff, much as Goku also would. His real name is Sun Wukong, not much different from Son Goku. Oolong from Dragon Ball is obviously modeled after Monkey Boy's comic companion, Pig. It appears that much of the 1993 movie's plot and characters drew directly from the 500-year old story.

Google

Historians

There are many other

AMRG

resemblances. Asian folk legend expert Michelle Rogers has a startlingly well-researched essay that compares Journey to the West with Dragon Ball at http://www.geocities.com/mnemosyne-hime/essays/journey_west.html.

Rogers is a contributor to the scholarly Anime and Manga Research Circle, which has a web page at <http://www.cjas.org/~leng/amrc.htm>.

Many of the members of this group have web pages that can be linked from here, covering all kinds of fascinating subjects concerning Dragon Ball and many other anime stories.

A must read, detailed look at the legend of Journey to the West and its influence on Toriyama can be found at <http://www.hanabatake.com/research/monkey.htm>. Here we also

discover that the legend of the Monkey Boy and his journey was actually based on the true story of Xuan

Zang, a Buddhist monk who made a journey to India around 1300 years ago to find enlightenment. The stories of this monk were embellished over the years, adding gods and demons he would encounter, and eventually became the stuff that Wu Cheng'en would write about.

Elsewhere on the web, a Mr. Wang Tao in China has produced a series of English language stories from Journey to the West. The first few pages of this work-in-progress can be found at

<http://qigong.hypermart.net/xiyou-part1.htm>. It includes the story of how the Monkey King got the name of Sun Wukong, and what it means. If you're really

fascinated by this story, the entire 1800 page three book translation can be ordered directly from China for a hefty \$79.95 at

<http://www.china-guide.com/monkey.html>. Also on that page is a link to a 52 VCD set (VCDs are much like DVDs) of Chinese animated cartoons based on Journey to the West, entitled Xi You Ji. This collection runs a couple of hundred dollars, so it's strictly for people who have nothing better to do with their money.

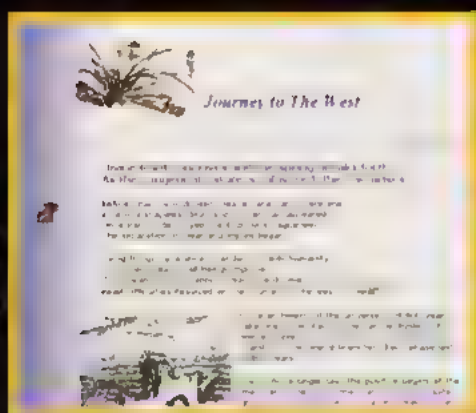

Finally, Kirby Bartlett-Sloan, a traveler to China, has placed a visual record on the web of his own journey to Guangdong Province where a walk-through attraction in Yuexiu Park is based on Journey to the West. The eight pages of photographs can be found starting at

<http://www.bartlett-sloan.net/Journey.htm>.

Past & Present

It is truly remarkable that a single person's travels thirteen centuries ago has evolved into a series shown on the Cartoon Network every day to millions of fans. And while Xuan Zang's search for enlightenment has taken on entirely different form today, perhaps the meaning of his story is not much different than what we get from watching Goku, Gohan, and the other characters from the Dragon Ball series, as they deal with their challenges. At the least, this shows that Dragon Ball is not just a silly cartoon, but part of an ever-changing, deep legend that reaches into the far corners of history.

I always appreciate comments and links to Dragon Ball web sites. You can send them to me at revvy@panix.com and don't forget to put "DBZ Readers Picks" in your subject line. While I can't respond to all the email I get (I'd have to nothing but answer email round-the-clock), I do visit every single web page that is sent to me. ★
